## Spark in BNA Immigration

Michael Ross

Officials report that there has been an abnormal spike in immigration to the Greater Nashville Area of immigrants from Egypt since the beginning of the year. Specialists have determined that this is caused by a recent exodus by Egypt's citizens during the chaos of the reign and fall of Hosni Mubarak as leader of the Middle Eastern country.

However, as it is believed that the immigration from Egypt is because of the situation with Mubarak, it is unknown why they have chosen the Nashville area as a haven and place to start new. They have begun to settle in the Antioch area, and are vastly changing the economic status of the city.
